

DAIRYLINE.COM

# Product Watch

As part of our overall commitment to keeping dairy producers and industry professionals updated with the latest product information available, Dairyline.com is pleased to announce a new Internet feature, simply called “New Product Watch.”

“New Product Watch” will get your message out now!

- The process is fast and easy, with minimal cost.
- Your new product will be featured on an exclusive page on dairyline.com.
- All of the details relating to our product with links, interviews and purchase info.
- Dairyline.com provides you with how many users visited your page.
- Your exclusive page will remain in our archives for anyone to view for one year, at no additional cost.

It has been our experience that new products that enter the marketplace will develop more exposure with an Internet presence. www.dairyline.com will deliver that message. Our site is viewed by thousands of dairy producers and industry related professionals.

Our one time rate is \$200. For more information or to place your product on dairyline.com today, please call Bill Baker at DairyLine, 360-354-5596, ext. 104 or e-mail [bbaker@dairyline.com](mailto:bbaker@dairyline.com).
